Amplify Austin

Leander ISD currently serves over 42,000 students across 47 campuses and is expected to grow by another 20,000 students in the next 10 years. We are excited that each year more students enroll - however, this requires additional resources. With state funding for public education continuing to shrink, LEEF's role in providing additional resources for teachers and students in our district is increasingly important.

Help us do more for our students and teachers. Support their dreams and goals by giving now. Provide a monetary grant award today and inspire the future for years to come.
